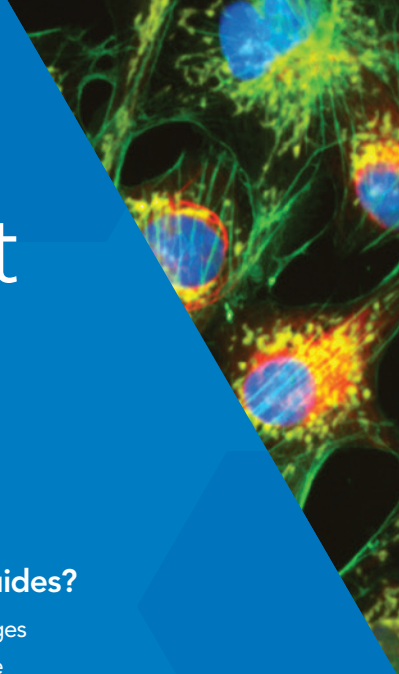
Thank You for Downloading the Historic CVI Melles Griot Technical Guide



BACKGROUND ABOUT THE TECH GUIDE

Since the origin of this guide a few things have changed. CVI Laser Optics and Melles Griot separated into two companies both still within IDEX Corporation (their parent company.) Melles Griot, both laser and optics divisions, were then brought into the IDEX Health & Science brand. **www.idex-hs.com**

CVI Laser Optics maintained their brand name within IDEX Corporate and some parts of these guides can be found in their updated form at **www.cvilaser.com**

Why are we providing the old guides?

The historic tech guide was used across colleges and Universities for years and we've heard the calls from professors and students alike to make it downloadable again.

We hope you find this information helpful and educational and look forward to collaborating with you in the future.

Who is IDEX Health & Science?

IDEX Health & Science is the global authority in fluidics and optics, bringing to life advanced optofluidic technologies with our products, people, and engineering expertise. We are the market leader in providing "enabling" optical systems, vertically integrated from sensors, cameras, optical filters, laser, and optical components through system design, manufacturing, and metrology. We combine deep technical expertise with creative engineering teams who understand how to bring product ideas to market successfully for leading OEM customers worldwide.

As the optofluidic leader, we deliver the most complete portfolio of technologies, components, and capabilities.
